POLICY REGARDING BUDDED CAMELLIAS

The 2-year gallons priced at \$1.25 will be budded in season. The 1-year gallons priced at \$1.00 will be selected with buds when available, but we cannot promise buds on some varieties.

Our Camellia rooted cuttings are planted in the early spring, direct to 4-inch pots to avoid the roots becoming pot-bound, which is very often the case in the smaller pots. The following spring we shift these 4" pot plants to gallons, assuring a strong and healthy root system.
